Dear Leaders and Parents,

Welcome to Cub Fall Fest at Kinsey Scout Reservation! We are truly excited for you to be joining us for this brand new program in 2020 that is designed for youth in the Cub Scouting program and their WHOLE family! This exciting program is filled with fun and adventure that will keep your family begging for more! The whole weekend is designed with fun and challenges for the scouts around every corner.

Now that you and your pack are registered, get ready for an entirely new experience at Kinsey Scout Reservation. Please take the time to read through this leader's guide. It spells out what you need to do while planning for your packs great stay at camp and what you and your cubs can expect once you arrive to camp. Make sure that every leader or parent that will be attending camp has had the opportunity to read this leaders guide. This leader's guide is also available on the website at www.norwela.org/forms.

Camping is on a pack by pack basis. Packs need to fill out a unit camping reservation form and turn it in to the Scout office. Packs will work through a rotation of activities that will both help them advance their scouts skills as well as have fun with friends. I also encourage each pack to come up with a skit or song to perform at Closing Flag Ceremony on Saturday evening.

If there are any questions that you may have about our program, please do not hesitate to email me at jimmy.boswell@scouting.org or contact the council office at 318-868-2774. I look forward to a fun-filled stay with you and your pack at Family Fall Fest.

Yours in Scouting,

Marc Braden
Camp Director

Rob Morgan
Program Director

Registration Information:

Camper Fees:

\$25 per Scout, \$15 per sibling

COVID-19 Screening Procedures:

When coming onto camp you will be asked the following by our medic and have a temperature check:

- Have you come into contact with anyone who has tested positive for COVID-19?
- Are you experiencing any of the following symptoms?
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting
 - Diarrhea

****Masks are Mandatory as dictated by the Louisiana Mask Mandate****

Refund Policy:

Refund will only be made in extenuating circumstances such as illness or death; these will be approved by the council office on a documented case-by-case basis. Refunds will be paid by the council service center. No refunds will be given at camp.

Leadership:

During Cub Fall Fest we observe two deep leadership for every pack at all times. Also for Tiger cubs, Tiger Adult Partners are expected to accompany their Tiger and participate with them.

All leadership (parents and leaders) must complete Youth Protection Training prior to attending camp.

Camp Visitors:

If there are parents visiting, they must check in at the camp office to sign in and get a visitors badge. Visitors do not count towards the leadership requirement, cannot be in camp after lights out/taps or before reveille, they also cannot actively participate in camp activities, but they may watch.

Camperships:

A limited number of camperships are available for the Norwela Council Scouts with financial need. Unit leaders are encouraged to plan ahead and discuss fees, fundraising opportunities in their pack, and/or financial need with parents well in advance of payment deadlines. Contact the Norwela Council Service Center for more information.

Vehicles and Parking at Camp:

The health, safety, and well being of our members, volunteers, and parents is paramount. The number one cause of fatalities, injuries, and insurance claims throughout the BSA involves vehicles in camps. Rules and policies are in place to reduce potential hazards and events and help ensure everyone has an enjoyable time. Please review the policies below so that you are aware and do your part to reduce hazards and ensure the safety of yourself and others.

- Units may obtain a vehicle pass to drive to their site and unload.
- We will have a shuttle with a trailer doing gear dropoff to campsites from the parking area.
- No vehicles may leave the roads, drive into camp sites, nor park off any road unless it is a designated camp site parking area.
- There will be a shuttle service available for those adults and youth with a handicap. Please inform event management so that arrangements can be made.
- Adults with a valid handicap, or designated as a “staff vehicle” by the KSR Ranger or event management may obtain a pass from the Administration Building which must be displayed on the vehicle’s dashboard then park where directed by the event management.
- All vehicles should remain parked in the main parking lot by the Dog Trot. Overflow and staff parking are in the Hallett lot and behind the dining hall. In the event that additional “overflow parking” is needed that parking area will be designated by the KSR Ranger and event management.
- Please obey posted speed limits.
- Please follow the designated traffic flow of the camp roads; i.e. “one way traffic”.
- Seatbelts must be worn at all times.
- Absolutely no one is allowed to ride in the bed of a pickup truck at any time.
- Vehicles will remain in the parking lot unless there is an emergency or pre-approval from event management.
- Units may drop a trailer at the entrance of a campsite and immediately return to the designated parking area.
- The KSR Ranger and event staff will employ a zero-tolerance policy when it comes to mobile vehicles on camp property during events. Violations may result in eviction of the vehicle.

Camp Policies

Adult Leadership:

All packs must have a minimum of two registered leaders, and one Tiger Parent Buddy per tiger. Every pack that attends must be under the supervision of its own adult leadership at all times. According to the BSA Youth Protection Policy, two-deep leadership is required for all activities, one leader who is at least 21 years of age and a second who is 18 years of age or older. You are in charge of your pack at all times and responsible for the discipline and organization of your pack. It is never the camp staff's task to take over your role as leader of your unit. Youth Protection Guidelines must be followed. This includes that no adult can stay in a tent with any scout unless it is his parent. All adults must have completed BSA's youth protection training. There are NO exceptions!

Camp Physicals:

All Cub Scouts, leaders, and family members are required to bring a copy of their BSA Annual Health and Medical Record. The medical forms will be kept by unit leadership, Parts A and B are required and must be completed within the previous 12 months.

Tobacco Products:

In accordance to the national policy of the Boy Scouts of America, adults are asked to use discretion when using tobacco products and should avoid using them in the presence of campers. Smoking is not permitted in camp buildings or tents nor is the use of tobacco products by those under the age of 18.

Controlled Substances:

In accordance with the national policy of the Boy Scouts of America, alcohol and illegal drugs are not permitted on camp property. Discovery of these items will result in immediate dismissal from the property. All medications must be under lock and key. Medications can be turned in to the camp health officer on arrival to be placed under lock or in the campsite.

Firearms:

NO PERSONAL Firearms and ammunition! All program supplies needed are available at the camp for use in the Shooting Sports area. Personal bows, shotguns, and other firearms are not allowed on camp property.

Footwear:

Except when at the pool, shower or lake area, closed-toe and closed-heel shoes must be worn in camp, no sandals or flip-flops.

Youth Protection:

One-on-one contact between adults and youth members is not permitted. In situations that require a personal conference; the meeting is to be conducted in view of others. Adult leaders must respect the privacy of youth members in all situations such as changing into swimming suits or taking showers at camp and intrude only to the extent that health and safety requires. Scout campers must extend the same courtesy.

The program at Cub Fall Fest is built around introducing and experiencing the different scout's skills, camping activities and having fun with their fellow scouts. The program for 2020 will be an open rotation so that the families can experience as much as they want to. Each area will provide exciting activities and entertainment with something for everyone in the family.

Check-in & Check-Out Procedures

We have created this check-in process to make it more user friendly for our campers and leaders,

as well as minimize the walking all over camp.

Check in starts at 8:30am (for units camping) and 10:30am for the day; please do not arrive at camp before 8:30am, as the staff will not be prepared for your pack.

Checking in the Day of the Event:

Upon arrival at camp we ask a few simple things that will help make your check in process easier.

1. When arriving at camp, go directly to the main parking lot (By the Dog Trot, parking lot at the fork in the road), to help with traffic flow.
2. Leaders should go directly to the Dog Trot for the check-in process.
 - b. You will receive your campsite assignment at check-in at Dog Trot Registration.
3. Once you get your campsite assignment consolidate all of your packs camping gear to as few vehicles as possible.
 - a. These vehicles will be able to go to the campsite to drop off the gear.
 - b. Only two vehicles per campsite, you will receive the campsite pass from a staff member by the road into your campsite.
 - c. Please move your vehicle from the campsite after it is unloaded.

We will have a gear shuttle moving gear to your campsite from the parking lot, only the two vehicles unloading the majority of the gear will be allowed.

Use of Personal Tents

Due to the family nature of our camping program, campers are allowed to bring their own tents for camping in our designated campsites. It is our goal that providing this option will allow the whole family to camp together!

Camp Health and Safety

Health Lodge:

The camp has an on-site Health Officer, trained in First Aid and Emergency Response. The Health Officer provides routine medical treatment and handles minor medical problems.

Program Areas:

All program areas, including the lake and climbing tower, are off-limits when closed.

Fire Prevention:

In case of fire, the Camp Office is to be notified immediately. Each unit is to organize a Fireguard Plan furnished by the camp. Camp Staff members serve as the principal fire fighters. All Campers are required to stay clear of any fire areas. Leaders are instructed to assemble their Scouts in a safe area and take a roll call. Each unit is to appoint a Fire Warden upon arrival at camp. No liquid fuel may be left in the campsite. No fires or flames are allowed in tents or campsites.

Emergency Procedures:

Emergency procedures are provided to all leaders at the pre-camp meeting and when checking into camp. The procedures are specific campsite assigned to the unit. It is important that these procedures are shared with all unit leaders.

Electronic Devices:

Radios, video games, and other electronic devices are strongly discouraged, but the policy will be left up to the individual unit leadership. Kinsey Scout Reservation cannot ensure their safety. Also, the past has shown them to be disruptive and annoying to the program as well as the general camp environment. So we encourage you to keep them at home.

Buddy System:

The buddy system is simply a pairing of youth that go places together. The buddy system should be used at all times during camp. Everywhere the youth go they should be with a buddy, and an adult leader. No Cub Scout should be seen alone in camp away from his group.

In-Camp Transportation:

During the camping season, no camper or leader aged 18 or over may be transported between one area of camp and another by any staff member or in any camp vehicle. Those under 18 years old need a note from a medical doctor explaining why transportation is necessary. Such notes must be reviewed and approved by the camp health officer and camp director. Adults should NOT arrive at camp with the expectation of being transported around camp. A camp physical does not ensure that a person is physically able to walk the trails of camp, but that is the expectation by the council of those attending camp. Anyone who believes their situation merits exception to this policy should contact the camp director PRIOR to arriving in camp to discuss their circumstances.

Any unit anticipating special provisions, whether related to transportation or otherwise, should be made prior to Cuboree to allow for Council review.
